In *Women on the Ballot: Pathways to Political Power*, author Betsy McGregor addresses in unflinching terms why it matters in building a just future to have women's voices heard and women's perspectives represented in policy debates. The book is designed to encourage, equip, and empower women to step up and run for political office. It is filled with compelling stories, striking insights, and practical advice from more than 90 women in politics, including Eva Aariak, Jean Augustine, Pat Carney, Kim Campbell,

Olivia Chow, Sheila Copps, Libby Davies, Iqra Khalid, Elizabeth May, Lisa Raitt, and Kathleen Wynne — to name just a few of the federal, provincial, municipal, and Indigenous political trailblazers profiled in this book. Through their stories, and her own, Betsy shows clearly why it is critical that women participate meaningfully in all aspects of the political process. She finds out what drove these women, what sustained them, and, in some cases, what defeated them.
